Referral to the Registration Committee

An application for registration will be referred to the Registration Committee if there are concerns as to whether the applicant has satisfied the requirements for registration or if there may be a reason to impose terms, conditions or limitations on the practice permit. Examples of applicants who are referred to the Registration Committee are:

- first-time applicants where there is a question that they have satisfied the requirements for registration;
- experienced applicants from other regulated jurisdictions who may not have satisfied all of the requirements for registration;
- applicants who have been Inactive or Retired, or who have had their license revoked or resigned, who wish to re-apply for registration;
- applicants with previous offences, discipline decisions or other findings that are relevant to their suitability to practise Dental Technology.

The Registration Committee will typically review an application referral at the next available meeting of the Committee and may require the applicant to submit additional documentation or be interviewed before rendering a decision.

The Registration Committee will review referrals with reference to CDTA regulations and policies.
